THE CHALLENGE

**When Devices Are
Uncontrolled.
Operations Are
Exposed.**

- ✗ Unknown device status
- ✗ Security vulnerabilities
- ✗ Manual configuration
- ✗ App misuse and data leakage
- ✗ Downtime affecting operations

THE WIZYEMM DIFFERENCE

- ✓ Complete device visibility
- ✓ Reduced security vulnerabilities
- ✓ Automated configuration
- ✓ App misuse and data leakage
- ✓ Improved operational uptime

EVERYTHING YOU NEED TO MANAGE, SECURE, AND OPTIMIZE

Device Management

Enrol, configure and monitor all your devices from a single console.

Application Management

Deploy, update and manage apps securely at scale.

Security & Compliance

Enforce policies, encrypt data and ensure regulatory compliance.

Remote Support

Diagnose and resolve issues remotely in real time.

Content Management

Securely distribute files, documents and multimedia content.

Policy & Profiles

Create and enforce device, security and application policies.

Location & Tracking

Real-time device location, geofencing and movement history.

Reporting & Analytics

Powerful reports and dashboards for better decision making.

Zero Touch Deployment

Mass deploy and configure devices without manual intervention.

Integration Ready

Seamlessly integrate with Comm360 Platform and third-party systems.

READY TO TAKE CONTROL OF YOUR DEVICES?

Discover how WizyEMM can secure your devices and transform your operations.
